Legal Document Intelligence System

How Your Documents Become Searchable Insights

🔧 PHASE 1: What It Does Today

Your Documents

PDFs, scans, photos, handwritten notes - any format

⬇

Text Extraction

AI reads every page, even messy handwriting and old faxes

⬇

Tone Analysis

Detects contradictions, evasive language, timeline issues

⬇

Smart Storage

Every piece linked to source doc + page number

⬇

Ask Questions

"Find contradictions about the meeting" → Instant answers

Red Flags It Catches Automatically

- ⚡ Contradictions
- Evasive Language
- Timeline Issues
- Aggressive Tone
- 🛡 Defensive Language
- ? Missing Information
- Unusual Wording
- Detail Inconsistency

PHASE 2: The Wash Center (Coming Soon)

YOUR OFFICE (Private)

- Original case files stay here
- All names & personal info stays here
- ✂System strips identifying info
- Sends only patterns & language
- Receives insights back
- Reconnects to your real cases

Anonymous data only

Insights only

WASH CENTER (External)

- Powerful AI processing
- Pattern analysis at scale
- Cross-case comparisons
- Never sees real names
- Never sees SSNs or addresses
- Returns findings, not raw data

100% Private

Sensitive data never leaves your hardware. The wash center only sees anonymized patterns - never actual client information.

⚖ Discovery-Ready

Complete audit trail of every operation. If challenged, you can prove exactly what data left your office (none of the sensitive stuff).

🚀 Enterprise Power

Get the analysis capabilities of a massive law firm's tech stack without the security risks of cloud storage.

⏱ Minutes, Not Weeks

Find contradictions across 10,000 pages in seconds. Pattern match across your entire case history instantly.
